Use the **times table** to help you answer the question.

Benito has 4 bags of marbles. There are 6 marbles in each bag. How many marbles does Benito have?

\[4 \times 6 = 24\] marbles
My Times

Write the time on the digital clock. Then add the clock hands to show the same time on the analog clock.

I wake up

I go to school at

I come home at

I eat dinner at

I go to bed at
Water Everywhere!

Read about **water**.

**Liquid**
Water is a liquid. Liquid water is wet. Rivers, ponds, lakes, and the sea have liquid water. Clouds are made of tiny water droplets.

**Gas**
Water is a gas. The gas form is called water vapor. Water vapor is part of the air. When the air feels damp or moist, the air has lots of water vapor in it. Steam is hot water vapor. Fog is cool water vapor.

**Solid**
Solid water is ice. A snowflake is made up of ice crystals. Ice cubes and icebergs are water in solid form.
